PUBLIC COMMENT-AGENDA ITEMS ONLY

Charlene Stanton, 184 Sell Street, addressed Council regarding Resolution No. 3 regarding the Cheny Run Flood Wall and the vacant property ordinance. Ms. Stanton had concerns as to whether the Solicitor had reviewed and approved an agreement with EADS with regard to the cost of repairs to collapsed channel walls in the stream adjacent to Bishop McCort. She clarified the name of the location is Cherry Run and not Cheney Run and suggested that the name be corrected in the resolution and ownership of the channel be investigated before a vote is taken.

Ms. Stanton commented that the previously tabled vacant property ordinance was amended to state that those vacant lot owners with code violations would be subject to fees and registration. She commented that the lack of code enforcement "would not make the ordinance worth the paper it's printed on" and suggested that the code ordinances be enforced.

REPORTS:

CITY MANAGER:

Daniel Penatzer, Interim City Manager, noted that Westmont police officer John Todaro would be asked to present a proposal to Council regarding the deer population in Stackhouse Park.

A workshop has been scheduled for Wednesday, September 29, 2021 to discuss matters related to code enforcement, preliminary discussion relative to the budget, the American Rescue Plan funding. The workshop with the Act 47 team would be rescheduled for that evening as well.

Mr. Penatzer would like to present the 2022 budget at the October meeting for final approval in November.

He noted that Department Reports have now been included in the agenda.

MAYOR:

Mayor Frank Janakovic reported that the Showcase for Commerce had cancelled its event but was able to conduct grant award presentations. He noted that \$678 million in grants were awarded to various local manufacturers which would add 100 jobs tentatively to local work forces.

Mayor Janakovic thanked all who participated in the Ethnic Fest held this past weekend.

Roughly 100 cars lined Main Street for the car show which was held recently downtown. Mr. Arnone stated 140 cars were present.

The Mayor noted his attendance at the recent Cambria County Library Open House.

Mr. Janakovic noted his attendance at the stimulus summit where he met with other political and business leaders as well as members of the community to discuss the future of the City going forward.

CITY SOLICITOR

Elizabeth Benjamin, Esquire, City Solicitor, noted she would have comments on Stackhouse Park later on in the agenda.

CITY ENGINEER

Ed Schmitt, Gibson-Thomas Engineering, presented on behalf of Bruce Graham for further discussion of two important issues. He indicated that Bruce Graham would continue to be the Gibson-Thomas Engineering representative but that in his absence, Vince Seyko would stand in.

Mr. Schmitt noted that it had been pointed out that he was considered as a potential conflict of interest in that he was also a Gibson-Thomas representative for the GJWA. He stated the engineering firm dually represents many municipalities in a non-voting capacity and noted no issues in that regard.

Mr. Schmitt reported that the landfill survived the recent storm and a letter was sent to the contractor regarding the trench at the bottom of the hill which needs immediate attention. After which the landfill would be presented to the Conservation District and an updated permit would be submitted to make the landfill available for use.

He stated Quaker Sales was given a notice to proceed paving as of September 20.

The ramp project is presently on hold until the downtown sewer project is completed in 2022.

The annual report concerning the MS-4 compliance has been submitted and the matter continues to be monitored with the City staff.

Storm water survey mapping is approximately 50 percent completed. He stated all manholes marked as storm sewers aren't storm sewers and all manholes marked sanitary sewers aren't necessarily sanitary sewers which has slowed progress down a bit but is still moving forward.

Mr. Schmitt noted the storm sewer on Fairfield Avenue is "in bad shape" and he received a call to stop the project. He requested that Council provide an official request regarding the matter. Mr. Schmitt stated he estimates this to be a nearly \$2 million project based on items that were discussed with Terra Works, the contractor. He suggested the matter be taken care of quickly or the contractor

will demobilize and move offsite which would increase costs. Mr. Schmitt requested a meeting with Council relative to being taken off the job. He indicated a meeting on September 15 with PennDOT regarding the matter.

Mr. Schmitt asked Council to consider Gibson-Thomas for additional engineering work next year. He reminded members of the 537 plan put together by his firm at a significantly reduced cost in order to help promote the overall sale to the GJWA.

The City Manager noted the discussion at last month's meeting regarding the presentation for an additional \$50,000 needed for the dump site and a project on Main Street whereby the GJWA intended to abandon the sanitary line and turn over the storm water line to the City. He noted that neither Public Works nor himself knew anything about this matter prior to the presentation and now it has happened a second time regarding these issues. Mr. Penatzer stated that whether members of the firm were voting on issues or not was immaterial. He stated he was not a hard person to contact and he would like to discuss issues where a conflict is arising. Mr. Schmitt requested an opportunity to have further discussion regarding these items. The City Manager suggested discussion regarding coordination on some issues that are underway, and contractual issues and project details need to be discussed at City Hall and not at a Council meeting. Mr. Schmitt indicated the scope of the work has significantly increased on the project.

Ms. Benjamin explained that at this point the matter needs to be sorted out and suggested that the City Manager report back to Council for further discussion and clarification. Mrs. Mock suggested that the City Manager move this matter forward as sufficiently as possible. Mr. Penatzer was in agreement with the suggestions.

NEIGHBORHOOD LIAISONS

Mr. Capriotti had no report.

Mr. Britt had no report.

Mr. Arnone, as Council's representative to the GJWA, he noted that locally the region received five inches of precipitation as a result of recent Hurricane Ida and none of the dams owned and operated by the GJWA reached a level to cause concern. He stated that areas of the City received localized flooding from runoff and nearly all of the Sanitary Sewer Overflows (SSO) were activated during the storm. And also that the storm showed the need to continue the remaining sanitary sewer project in the Johnstown area. The month of August showed the

highest number of pressure tests. He noted approximately 4,000 pressure tests have to be done within the City or a non-completion rate of 49 percent. Mr. Arnone stated the GJWA would begin assessing a \$25 a month surcharge for customers who have not completed a pressure test or signed an agreement with a contractor to have the work completed. Further information is available at JRA.

Mr. Arnone, Council's representative on the JHA, provided an update of statistical information relating to the population of the public housing communities located within the City of Johnstown.

He reported that as of August 31, 2021, the total population of the public housing communities was 2,669. Section Eight voucher holders totaled 855. This amounts to a total of 3,524. Currently 47 percent of the people within the City of Johnstown are being assisted. Mr. Arnone noted that Section Eight housing is inspected once a year and the only way the federal government would supplement the rental cost is if the property is maintained to its standard. As a result, the JHA raised its standard and made it as strict as it could to comply. JHA would host an event to promote the Section Eight program to potential landlords on September 23, 2021 at the Holiday Inn in downtown Johnstown. Representatives from the Section Eight department will be available to answer questions regarding becoming a Section Eight landlord. A \$1,000 bonus would be paid for each unit that comes under the program.

Mr. Vitovich reported that Public Works employees have cleaned up Cambria City for the upcoming Ethnic Fest, helped with rehabilitation of the Minersville Playground, assisted UPJ freshmen with applying mulch at the Park Avenue and Wood Street Playgrounds and helped with neighborhood cleanups on Cleveland Street, Clover Street as well as other places. Mr. Campagna and his crew were commended for their participation.

Mrs. Mock reported a garage sale will be held on September 25, 2021 to raise funds for additional cameras and other community events and a basket sale in would be held in November.

She noted that the community gardens did well this past season and many residents helped themselves to the products available.

August 19, 2021 Mrs. Mock and Reverend King attended the Moxham neighborhood watch group meeting.

August 25, 2021, a Moxham neighbor requested a joint meeting with Chief Pritchard and Captain Miller to express concerns. Mrs. Mock thanked both for attending.

The Moxham Community Festival is scheduled for Saturday, September 25, 2021, 11:00 to 6:00. Chicken and ribs dinners, music, bingo, and other activities would be available on the Russell House ground.

More cameras will be added to the Roxbury Park in the picnic area. The Roxbury Civic Group held an informational meeting with the Cambria County Drug Coalition. An adopt a highway event is scheduled for the fall.

Reverend King noted her attendance at the ribbon cutting ceremony for the ACRP Splash Park. She commended ACRP for that project.

She attended the Showcase for Commerce. Reverend King reported that a job fair will be held on September 28, 2021, from 12:00 to 5:00 at the Pasquerilla Center.

Public Works has started cleanup on the gateway to the City on William Penn Avenue in Prospect.

A ceremony will be held on October 15, 2021 renaming the Prospect Bridge to the Rev. Dr. Andrew Tilly Memorial Bridge.

The Kernville Committee continues to work with Public Works to calm traffic down on Somerset Street near the playground. She noted safety concerns with cars parked in front of the Franklin Street Bar and Grill.

Reverend King will provide updates in the near future regarding the Minersville community.

A recent meeting in Woodvale revealed plans concerning the path of the flood trail on Plum Street. Mr. Arnone suggested that Reverend King contact Father Gulash at Resurrection Parish who is also the administrator for St. Clare of Assisi in Woodvale regarding use of that school hall for meetings.

Reverend King mentioned the COVID task force is back in full effect due to the delta variant and will resume on September 9, 2021, at 11:00 a.m.

This Friday, September 10, 2021, 5:00 p.m. Prospect will hold a give-away of fresh corn and green beans.

Chief Pritchard reported that speed devices were used on Frederick Street to collect data regarding speeders and may be moved to Cooper Avenue to collect data along that street.

He noted that officers are stopping people with delaminated plates, and those people will be stopped and given a form to submit to PennDOT for replacement free of charge. He reported that the Steel Street property questioned by Reverend King is presently in the hands of the insurance company. There was also discussion regarding a property on the lower side of Russell Avenue that had been partially destroyed by a fire and discussion as to when the Army Corps would continue work on cleaning up the river.
