NOTE: If the tire width is over 96" you can not delete the fender flares.

NOTICE: If your chassis has a set back front axle and an Allison World Class 4000 series transmission, interference between your PTO and your spring hanger could necessitate an additional charge for a non-typical PTO/Pump application. This may or may not be applicable to you specific chassis.

Any additional work required to chassis for proper installation of this body will incur an additional charge for time & material.

Truck frames must be received ready to accept body. Relocation of air tanks and battery boxes will be quoted separately upon truck chassis arrival as appropriate. A & H Equipment will not be responsible for moving these items at no cost.

If chassis comes without factory tail lights an upcharge of \$200.00 will be applied.

If chassis is not equipped with a plow light switch, additional \$200.00 will apply.

Please review carefully. If you have any questions, contact your sales representative. If there are no questions please sign and return one of the enclosed copies. We must have a signed copy of this specification before we process your order. PRICES SUBJECT TO CHANGE AFTER 30 DAYS.

Any modifications made to this specification after chassis is in production, customer can incur additional expenses.

Effective 02/01/2016
